## WORK EXPERIENCE

---

### Verizon, *Software Development Intern*, Irving, TX

Jun 2017 - Aug 2017

- Worked under the Alternate Channels Team developing a mobile version of Coffee 2 Go helping Verizon door to door agents
- Developed a hybrid mobile application using the Ionic framework
- Planned and assigned sprints to my teammates using the Scrum and Agile methodology

### Rutgers Office of Information Technology, *Help Desk Level 1 Consultant*, New Brunswick, NJ

Apr 2016 - Jan 2017

- Assisted users with technical issues through trouble shooting technical procedures and in person support
- Created detailed and accurate support tickets to outline support methods
- Participated in ongoing training to learn more about the systems and software used by the Rutgers community

### Stop & Shop, *Customer Service Representative*, Dayton, NJ

Aug 2013 - Apr 2017

- Ensured customer satisfaction by providing fast and reliable service through problem solving skills
- Daily tasks required knowledge of NJ Lottery including cashing/printing tickets and handling Western Union transfer
- Experienced as a Customer Service Department Manager

## PROJECTS

---

### Verizon Hackathon

Jun 2017 - Jun 2017

Developed an algorithm to reduce installation cost of 5G cell towers in given neighborhoods. Used Bing Map API to automatically test house to cost ratio while increasing performance score.

### Photo Album

Mar 2017 - Apr 2017

Fully functional application built on the Android platform allowing users to create photo albums. Various features included photo slideshow, transferring of photos from one album to another and etc. Developed a well designed graphical interface to enhance user experience by providing easy to use navigation within the application.

## LEADERSHIP

---

### RU Makerspace, *Events Chair/Secretary*

Sep 2016 - May 2017

- Worked closely with the President to create new club events during bi-weekly workshops
- Frequently creating Facebook event pages and sending out emails to our club mailing list
- Hosted an event teaching several students how to program using the Android interface

### Rutgers University Student Assembly, *Vice President of Athletics Affairs Committee*

Sep 2015 - Aug 2016

- Proposed a bill which helps promote sanitary standards during Rutgers Football Events
- Researched the financial benefits of implementing sanitary standards during Rutgers events
- Part of a team that helped pass the Alcohol Sale Bill, promoting healthy drinking decisions for students
